

# Sensitive Question Activity I (A)

The purpose of this activity is to think about sensitive topics on surveys. This activity will help you to consider how respondents experience sensitive topics.

## Partner Activity

You are going to play the role of interviewer and respondent to experience firsthand how potentially sensitive questions work in a face-to-face survey interview. **Importantly: Do NOT answer the questions.** For each question, write down how you felt as the interviewer asking the question or how you felt as the respondent in attempting to answer the question. Your partner has a different version of the questionnaire than you. Take turns in each role.

## Interviewer Questions

1. Which party did you vote for in the last election for the European Parliament?
2. Do you agree or disagree that it is morally wrong to gamble?
3. To the nearest 5,000kr (or 1,000 Euro), what is your parents' total household income?
4. During the past 30 days, on how many days did you have at least one drink of alcohol?
5. To what extent do you agree with the following statement? "Men and women should have different roles to play in society."
6. When was the last time you had unprotected sex?
7. During today's class session, how much time have you spent on your computer on things unrelated to class?

## Individual Activity

Please read the following questions as if you were completing the survey for real. You do NOT need to record your answers. Instead, write down what goes through your mind as you answer each question. We will discuss those feelings and reactions in general terms after you are finished.
